WEBRECORD® PRO

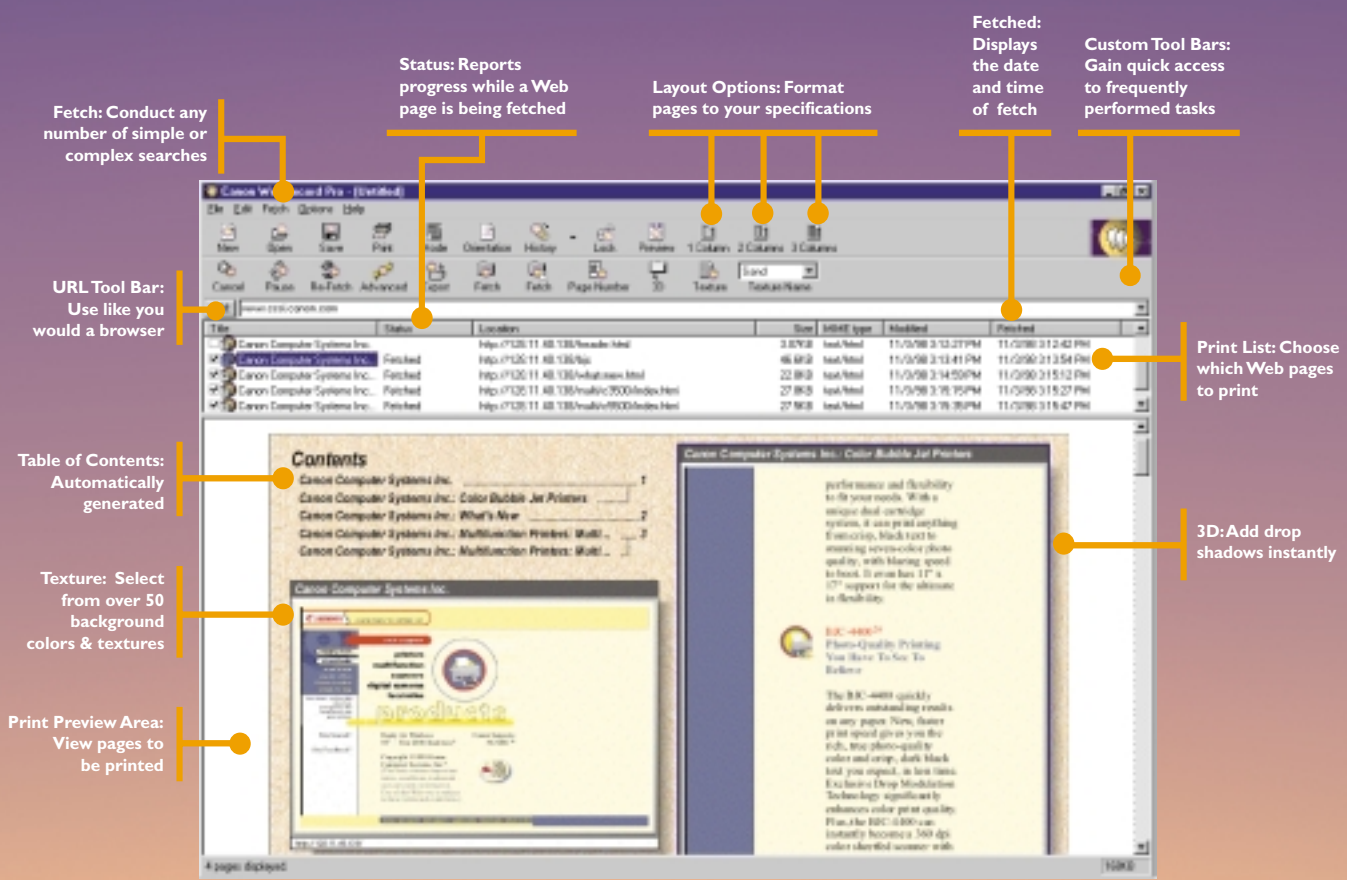
The All-In-One Internet Productivity Solution

FREE INSIDE

A $24.99 VALUE

WebRecord® Pro Gives You the Tools You Need to Gather, Manage and Print Critical Information.

It's like having a professional research assistant to handle your Internet research for you! This Internet management tool will give you the resources you need to gather, store and efficiently format and print critical research information. Saving you time and money, WebRecord Pro is the easiest way to stay current with changing Internet data.

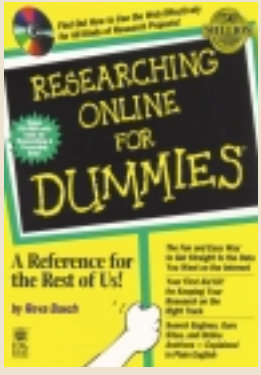


WebRecord Pro® Lets You Schedule Downloads Anytime – Day or Night.

Schedule Web site searches, data downloads and printing anytime – day or night. You can specify each job to run once, daily or weekly, even skipping days if required. Results can be printed or saved to your hard drive for browsing offline.

WebRecord Pro's Presentation-Quality Output will Minimize the Amount of Paper You Use.

Readability is enhanced by controls that let you alter font size and customize backgrounds, producing attractive, professional results. Printing Web pages has never been easier.



Included FREE! Researching Online for Dummies®

Even the most competent searcher will find this book invaluable. It covers just about every subject you might want to research – investments, competitive intelligence, government information, sci-tech and much more. Over 300 pages. Includes CD-ROM with two bonus chapters.

- Automatic Password Entry

Canon

WebRecord® Pro – the easiest way to stay current with ever-changing Internet information.

RESEARCH

• With the ability to fetch and print individual pages or entire Web sites, WebRecord Pro is the best Internet research assistant you could ask for. It follows you to every page you surf, or you can instruct WebRecord Pro to gather related pages or data through hyperlinks. The schedule feature lets your computer do the work for you anytime – day or night.

RETRIEVE

• Track Web sites while you surf or retrieve an entire site without having to visit every page. Using some very innovative features, WebRecord Pro lets you set your own search criteria so you can find exactly what you're looking for. One easy option lets you find Web pages that have been modified or added to a site since your last visit.

ENHANCE & PRINT

• Improve readability of printed Web pages. Change the background color or texture. Change the number of columns per page. Or change the page layout. For timely presentations, you can leave out unnecessary graphics and color. No matter what, your output will be designed exactly the way you want it.
